Pharmacy Refrigerator LX3000PR

Email: info@labdex.com **website:** www.labdex.com

Description

Pharmacy Refrigerator LX3000PR is an upright under counter glass door refrigeration unit and designed with a micro-processor controlled function. Automated defrost cycles facilitate frost-free storage interiors. Dual thermal-glazed insulation with magnetic seal rings ensures low energy consumption. System alarms include temperature limits, door ajar, low voltage and power off conditions.

Specifications

Capacity	60 L
Shelf/drawer	Shelves/2
Cooling method	Forced air cooling
Defrost	Auto
Refrigerant	R600a
Noise	50 (db)
Ambient temperature	10~32 ℃
Temperature range	2~8 ℃
Sensor type	NTC
Temperature controller	Microprocessor
Display	Digital display
Inside material	Color sprayed steel
Outside material	Color sprayed steel
Insulation	PURF
Power consumption	0.84 (kWh/24h)
Power	72 W
Current	0.59A
Voltage/Frequency	220V/50Hz
Interior size (W x D x H)	410 x 315 x 560 mm

Exterior size (W x D x H)	495 x 450 x 710 mm
Package size (W x D x H)	558 x 510 x 760 mm
Net weight	33 kgs
Gross weight	40 kgs

Features

- Build with Color sprayed steel
- Micro-processor controlled function with digital display
- Designed with forced air cooling system
- It has two shelves with shelves height adjustable function
- 3 standard locks with keys for 3 doors
- LED interior light
- Double layer LOW-E glass door and foamed solid door for optional
- It has various type of alarm function such as High/low temperature, Power failure, Thermostat failure, Power failure backup system, and Door ajar
- Auto defrost function

Applications

- Used for storage of biological products, vaccines, drugs, reagents, and more. User can apply the pharmacy refrigerator in pharmaceutical factories, hospital, centers for disease prevention and control, clinics etc.

Standard Accessories

- Foot
- Door Lock
- Test hole 25 mm
- Lamp
- Remote alarm port

Optional Accessories

- Datalooger

71-75 Shelton Street Covent Garden, London WC2H 9JQ UK.
